OIL TANK ACCESSORIES

Put the vacuums away!

No need to panic when the tank is loaded and you need to work on the feed to the burner.

Just isolate the tank by using this elbow and our **3/8" F x F ball valve** (shown below).

OIL TANK ELBOW

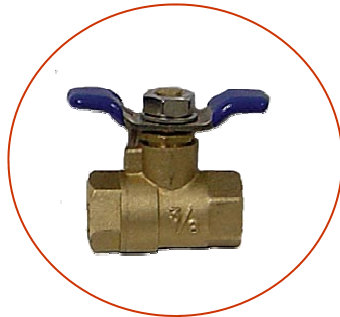

1/2" x 3/8" steel elbow for bottom drain oil tanks

Item #12380TL

This heavy duty schedule 40 steel elbow will not break with pressure from ice or someone's step. This elbow extends 2" past outside of tank allowing for easy connection of isolation valves. Inline fusible oil valve can be placed after isolation valve.

Now that's a smart set up.

3/8 F x F BALL VALVE

Item # TPG38

VENT CAPS

| ITEM # | DESCRIPTION |
|------------|--------------------------|
| 114GVCAP/S | 1 ¼ Vent Cap with Screen |
| 114GVCAP | 1 ¼ Vent Cap less Screen |
